DESCRIPTIONS OF ELECTIVE COURSES

Field of study	Nursing
Level	first-cycle studies
Students admitted in the academic year	2025/2026
Semester in which the courses are selected	**3**
Semester in which the courses are conducted	**4**

Elective courses enable the acquisition of knowledge and development of skills important to the field of study but considering the student's individual interests.
This semester you can choose one elective course, and the selected course will be taken in the summer semester.
The course chosen by the greater number of students will be run. The course is compulsory.
This semester, you will make your choice using a survey that will be available from November 6th (the survey will be active until November 15th). Students who do not make a choice will be administratively added to the courses that will be implemented.

In the winter semester of the 2026/27 academic year, students choose 1 course out of 2 offered.

SIGN LANGUAGE

Course content:

- Causes of hearing and speech disorders in the context of communication. The importance of early detection of speech disorders.
- Methods and means of communication for people with hearing impairments. Principles of communication with deaf patients.
- Dactylographic signs: static, dynamic, numerical and idiographic signs for gathering information about the patient’s health status.
- Use of sign language in the care of deaf patients. Preparing the patient for informed participation in medical and care procedures.
- Use of sign language in situational terminology: taking a medical history, providing care and nursing services, administering first aid, communicating information to the family.

TELEMEDICINE AND E-HEALTH

Course content:

- The use of telemedicine and e-health systems in the provision of nursing care.
- Technical tools used in telemedicine and e-health systems.
- Principles of documenting a patient’s health status and nursing care using ICT tools for data collection
- Ways of supporting patients in the use of ICT systems for self-care in health and illness.
